Weird Science

CAMP INDEPENDENCE 2024

Join us in 2024 at the Independence Research Laboratory as we explore the weird and wacky world of science! Scouts will discover how a bow and arrow work, what it takes for plants to grow, or how to build a robot using a toothbrush.

Six sessions are available for Scouts to join us in the lab beginning in June 2024. Scout researchers and their families are welcome to spend a weekend with us at Camp Independence at Heritage Reservation. Schedule your research session now!
